**WHO WE ARE**  
**AND WHAT WE CRAFT**

# HI, WE'RE ATLAS.

At Atlas Metal, we've been Making Metal Personal since 1948, never cutting corners and always obsessing over the details.

For foodservice operators who value handcrafted manufacturing and personalized customer service, our family-owned, US-based company is here to help you get it done and get it done right.

Along with offering a large inventory and quick delivery, our office staff and field representatives are happy to provide you with technical support and information every step of the way. It's all part of our hands-on approach.

# CRAFTED TO PERFORM.

Our handcrafted serving lines certainly stand out, but they don't stand alone. Explore this catalog for our full range of versatile serving equipment, from large-scale custom applications all the way down to napkin holders.

# SERVING LINES | CUSTOM

WHATEVER YOU NEED, CUSTOMIZED TO AMAZE.

Our INFINITI custom serving lines are painstakingly handcrafted to ensure decades of elevated form and function. With an endless array of designs and configurations, INFINITI lines are more than well-built and beautiful. They're one-of-a-kind statements that showcase your high standards and unique style.

Any color. Any style.  
Anything you can imagine.  
That's INFINITI Custom.

TOP-QUALITY MATERIALS, EMPOWERED BY YOUR VISION.

## Heavy Metal

- Tops, panels, under shelf and apron feature 16-gauge stainless steel all-welded construction
- Body frame features 1/4" x 1/4" stainless tubing and all-welded construction, on stainless steel legs

## Enviably Exteriors

- Top choices include stainless steel, granite, Corian and special solid-surface materials
- Exterior choices include plastic laminate, wood veneer and special solid-surface materials
- Countless food guard options range from elegant to streamlined

# SERVING LINES | CUSTOM

## **Bold Touches**

With INFINITI, it's not just about how we make it. It's about how we make it yours. The Atlas Metal design team will work closely with you to incorporate features that bring your vision to life and take your operation to the next level.

- Creative counter profiles
- Decorative front panels with custom graphics
- Head-turning lighting displays
- Artistic backsplashes
- Hinged and sliding doors
- Multi-level shelving
- Heat strips
- And much more

about INFINITI custom.

# SERVING LINES | MODULAR

READY TO GO AND GROW.

Our handcrafted modular serving lines are the perfect choice for highly versatile solutions that grow with your operation. Though these three lines vary in available features, the build quality and durability are identical across the board.

What's your temperature? All lines offer all the choices.

**REFRIGERATED | HEATED | DUAL-TEMP | NON-MECHANICAL**

## INFINITI FIT SERIES

**Streamlined and striking with features like built-in wells and gapless connections.**

INFINITI FIT is our top-of-the-line modular solution, with premium features like 16-gauge stainless steel tops, hidden-frame fronts and customizable add-ons. Choose this series for its ideal combination of leading performance and striking, streamlined aesthetics.

# SERVING LINES | MODULAR

## BL SERIES

**Smooth and clean with features like hidden casters and rounded edges.**

Our BL series features units that work hard every day and look great while doing it. Crafted with aluminum, these exposed-frame carts can be outfitted with plastic laminate or urethane-painted panels. Choose this series for its rock-solid reliability and agility in settings like K-12.

## CA SERIES

**Utilitarian and functional with features like exposed casters and squared edges.**

Our CA series might be our value-driven line, but it's built for years of consistent performance. Available in aluminum or stainless steel with simple yet effective features, these units serve as a perfect entry point into the Atlas Metal family of handcrafted products.

Choose from these standard modular laminate colors or let us know if you'd prefer a custom color.

Scan for our **Serving Line Matchmaker**, the easy way to find the right serving line.

# DROP-INS

## CORE STRENGTH FOR YOUR SETUP.

As the centerpiece of your serving line, a drop-in can be a make-or-break element. Our legendary drop-ins are crafted for consistent, rock-solid performance and decades of reliability.

## FEATURES THAT PERFORM AND LAST.

- Hand-welded 18-gauge stainless steel provides ultimate dependability
- Pre-installed, self-sealing gaskets and pre-installed drainpipes make your life easier
- Real insulation, not foam-in-place, holds temperatures better and prevents bowing
- Thermal mastic boosts insulation of coils
- Hot, cold, dual-temperature and non-mechanical options provide lots of possibilities

# DROP-INS

Our drop-ins and slide-ins are available in various size and temperature configurations. They can be installed in our custom and modular carts.

# DROP-INS | VARITEMP

STEP UP TO MAXIMUM VERSATILITY WITH THE VARITEMP HOT-COLD SOLUTION.

Serving chilled fruit next to hotcakes? No problem. Chopped salad beside chili? You're good. Meet VariTemp, our first drop-in that lets you easily switch the temperature of each well.

Scan to access an interactive 3D model and additional product details.

## CRAFTED TO UPGRADE YOUR OPERATION.

- Create any combination of hot and cold offerings and then change it up with the flip of a switch
- Available in two- and three-well configurations
- Single-compressor operation with side venting
- Pre-installed gaskets
- Exclusive edge-eliminating top frame

Switch each well from hot to cold, or vice versa, in 55 minutes or less

# FOOD GUARDS

KEEPING FOOD SAFE, BEAUTIFULLY.

Featuring exceptional construction and a variety of configurations, our food guards are built to complement any style for the long haul.

## CONSTRUCTION THAT PERFORMS.

- All components are CNC machined in the USA
- Stainless steel tubing is all welded, ground and polished to a uniform finish
- Stainless steel clamps are welded to the frame

# ACCESSORIES

LOTS OF WAYS TO MAKE IT WORK FOR YOU.

Other manufacturers may give less love to accessories, but we know these elements are often what employees and guests interact with the most. From our standard-setting dish dispensers to carefully crafted handles and silverware holders, each piece is made with the same care and focus as our larger products.

## SELF-LEVELING DISPENSERS

- Exclusive self-leveling technology for high-volume dish dispensing in cafeteria and tray make-up areas
- Available for most standard-sized plates, bowls and platters
- Low-maintenance stainless steel construction
- Available in drop-in and mobile variations

# ACCESSORIES

## EXTRAS AND ADD-ONS

SHELVING AND TRAY SLIDES

- Stainless steel and plastic laminate options
- Available in a variety of sizes and configurations

SILVERWARE AND NAPKIN HOLDERS

- Stainless steel construction
- Holds stainless steel or plastic drop-in cylinders (sold separately)

SILVER PAN DISPENSER

- Welded stainless steel construction
- Available with three, four or five removable pans

STAINLESS STEEL LEGS

- Adjustable 6-7 $\frac{1}{2}$ " stainless steel
- Fits all LEVELMATIC dispensers in lieu of casters

POLYURETHANE CASTERS

- Heavy-duty 4" diameter swivel with polyurethane tires and locking brake

PUSH-PULL HANDLE

- 1" diameter, type 18-8 stainless steel tubing
- Mounted on narrowest side of cabinet

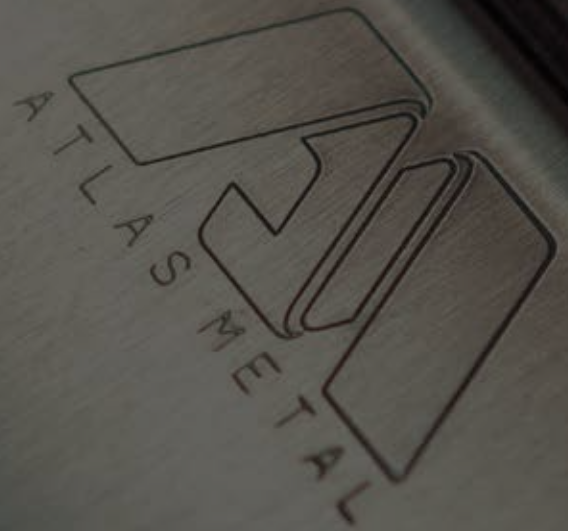

ADAPTER PLATES

- Stainless steel construction with full perimeter beaded edge
- Fits any standard 12" x 20" opening
- Accommodates most standard round inserts
